Product Datasheet

Mouse Gastrin (GT) ELISA Kit BYT-ORB1807730

Artikelname	Mouse Gastrin (GT) ELISA Kit
Artikelnummer	BYT-ORB1807730
Hersteller Artikelnummer	orb1807730
Alternativnummer	BYT-ORB1807730-48,BYT-ORB1807730-96
Hersteller	Biorbyt
Kategorie	Kits/Assays
Spezies Reaktivität	Mouse
Produktbeschreibung	Mouse Gastrin (GT) ELISA Kit...
Detektionsbereich	15.63-1000pg/mL
Sensitivitaet	9.38 pg/mL
UniProt	P48757
Proben	serum, plasma, Tissue homogenate and Other biological samples
Target-Kategorie	GT

Anwendungsbeschreibung

Application Notes: This ELISA kit uses the Competitive-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with Mouse GT. During the reaction, Mouse GT in the sample or standard competes with a fixed amount of Mouse GT on the solid phase supporter for sites on the Biotinylated Detection Ab specific to Mouse GT. Excess conjugate and unbound sample or standard are washed away, and Avidin-Horseradish Peroxidase (HRP) conjugate are added to each micro plate well and incubated. Then a TMB substrate solution is added to each well. The enzyme-substrate reaction is terminated by the addition of stop solution and the color turns from blue to yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm \pm 2 nm. The concentration of Mouse GT in tested samples can be calculated by comparing the OD of the samples to the standard curve
