Mouse Transforming Growth Factor Beta 2 (TGF-beta2) ELISA Kit BYT-ORB1807742

Artikelname	Mouse Transforming Growth Factor Beta 2 (TGF-beta2) ELISA Kit
Artikelnummer	BYT-ORB1807742
Hersteller Artikelnummer	orb1807742
Alternativnummer	BYT-ORB1807742-48,BYT-ORB1807742-96
Hersteller	Biorbyt
Kategorie	Kits/Assays
Spezies Reaktivität	Mouse
Produktbeschreibung	Mouse Transforming Growth Factor Beta 2 (TGF-beta2) ELISA Kit...
Detektionsbereich	15.63-1000pg/mL
Sensitivitaet	9.38 pg/mL
UniProt	P27090
Proben	serum, plasma, Tissue homogenate and Other biological samples
Target-Kategorie	TGF-beta2

Anwendungsbeschreibung

Application Notes: This ELISA kit uses the Sandwich-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Mouse TGF-beta2. Standards or samples are added to the micro ELISA plate wells and combined with the specific antibody. Then a biotinylated detection antibody specific for Mouse TGF-beta2 and Avidin-Horseradish Peroxidase (HRP) conjugate are added successively to each micro plate well and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain Mouse TGF-beta2, biotinylated detection antibody and Avidin-HRP conjugate will appear blue in color. The enzyme-substrate reaction is terminated by the addition of stop solution and the color turns yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm \pm 2 nm. The OD value is proportional to the concentration of Mouse TGF-beta2. You can calculate the concentration of Mouse TGF-beta2 in the samples by comparing the OD of the samples to the standard curve
