## Product Datasheet

### Mouse Gastric Inhibitory Polypeptide (GIP) ELISA Kit BYT-ORB1807763

Artikelname	Mouse Gastric Inhibitory Polypeptide (GIP) ELISA Kit
Artikelnummer	BYT-ORB1807763
Hersteller Artikelnummer	orb1807763
Alternativnummer	BYT-ORB1807763-48,BYT-ORB1807763-96
Hersteller	Biorbyt
Kategorie	Kits/Assays
Spezies Reaktivität	Mouse
Produktbeschreibung	Mouse Gastric Inhibitory Polypeptide (GIP) ELISA Kit...
Detektionsbereich	78.13-5000pg/mL
Sensitivitaet	46.88 pg/mL
UniProt	<a href="#">P48756</a>
Proben	serum, plasma, Tissue homogenate and Other biological samples
Target-Kategorie	GIP

Anwendungsbeschreibung

Application Notes: This ELISA kit uses the Sandwich-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Mouse GIP. Standards or samples are added to the micro ELISA plate wells and combined with the specific antibody. Then a biotinylated detection antibody specific for Mouse GIP and Avidin-Horseradish Peroxidase (HRP) conjugate are added successively to each micro plate well and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain Mouse GIP, biotinylated detection antibody and Avidin-HRP conjugate will appear blue in color. The enzyme-substrate reaction is terminated by the addition of stop solution and the color turns yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm. The OD value is proportional to the concentration of Mouse GIP. You can calculate the concentration of Mouse GIP in the samples by comparing the OD of the samples to the standard curve
