Product Datasheet

Human B-Cell Linker Protein (BLNK) ELISA Kit BYT-ORB1947620

Artikelname	Human B-Cell Linker Protein (BLNK) ELISA Kit
Artikelnummer	BYT-ORB1947620
Hersteller Artikelnummer	orb1947620
Alternativnummer	BYT-ORB1947620-48,BYT-ORB1947620-96
Hersteller	Biorbyt
Kategorie	Kits/Assays
Spezies Reaktivität	Human
Produktbeschreibung	Human B-Cell Linker Protein (BLNK) ELISA Kit...
Detektionsbereich	0.16-10ng/mL
Sensitivitaet	0.1 ng/mL
UniProt	Q8WV28
Proben	serum, plasma, Tissue homogenate and Other biological samples
Target-Kategorie	BLNK

Anwendungsbeschreibung

Application Notes: This ELISA kit uses the Sandwich-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Human BLNK. Standards or samples are added to the micro ELISA plate wells and combined with the specific antibody. Then a biotinylated detection antibody specific for Human BLNK and Avidin-Horseradish Peroxidase (HRP) conjugate are added successively to each micro plate well and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain Human BLNK, biotinylated detection antibody and Avidin-HRP conjugate will appear blue in color. The enzyme-substrate reaction is terminated by the addition of stop solution and the color turns yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm. The OD value is proportional to the concentration of Human BLNK. You can calculate the concentration of Human BLNK in the samples by comparing the OD of the samples to the standard curve
