Product Datasheet

Human Transcription Factor 20 (TCF20) ELISA Kit BYT-ORB1948159

Artikelname	Human Transcription Factor 20 (TCF20) ELISA Kit
Artikelnummer	BYT-ORB1948159
Hersteller Artikelnummer	orb1948159
Alternativnummer	BYT-ORB1948159-48,BYT-ORB1948159-96
Hersteller	Biorbyt
Kategorie	Kits/Assays
Spezies Reaktivität	Human
Produktbeschreibung	Human Transcription Factor 20 (TCF20) ELISA Kit...
Detektionsbereich	62.5-4000pg/mL
Sensitivitaet	37.5 pg/mL
UniProt	Q9UGU0
Proben	serum, plasma, Tissue homogenate and Other biological samples
Target-Kategorie	TCF20

Anwendungsbeschreibung

Application Notes: This ELISA kit uses the Sandwich-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Human TCF20. Standards or samples are added to the micro ELISA plate wells and combined with the specific antibody. Then a biotinylated detection antibody specific for Human TCF20 and Avidin-Horseradish Peroxidase (HRP) conjugate are added successively to each micro plate well and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain Human TCF20, biotinylated detection antibody and Avidin-HRP conjugate will appear blue in color. The enzyme-substrate reaction is terminated by the addition of stop solution and the color turns yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm. The OD value is proportional to the concentration of Human TCF20. You can calculate the concentration of Human TCF20 in the samples by comparing the OD of the samples to the standard curve
