## Product Datasheet

### Human Tumor Necrosis Factor Related Ligand 1A (TL1A) ELISA Kit BYT-ORB1948200

Artikelname	Human Tumor Necrosis Factor Related Ligand 1A (TL1A) ELISA Kit
Artikelnummer	BYT-ORB1948200
Hersteller Artikelnummer	orb1948200
Alternativnummer	BYT-ORB1948200-48,BYT-ORB1948200-96
Hersteller	Biorbyt
Kategorie	Kits/Assays
Spezies Reaktivität	Human
Produktbeschreibung	Human Tumor Necrosis Factor Related Ligand 1A (TL1A) ELISA Kit...
Detektionsbereich	78.13-5000pg/mL
Sensitivitaet	46.88 pg/mL
UniProt	<a href="#">O95150</a>
Proben	plasma
Target-Kategorie	TL1A

Anwendungsbeschreibung

Application Notes: This ELISA kit uses the Sandwich-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Human TL1A. Standards or samples are added to the micro ELISA plate wells and combined with the specific antibody. Then a biotinylated detection antibody specific for Human TL1A and Avidin-Horseradish Peroxidase (HRP) conjugate are added successively to each micro plate well and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain Human TL1A, biotinylated detection antibody and Avidin-HRP conjugate will appear blue in color. The enzyme-substrate reaction is terminated by the addition of stop solution and the color turns yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm. The OD value is proportional to the concentration of Human TL1A. You can calculate the concentration of Human TL1A in the samples by comparing the OD of the samples to the standard curve
