Mouse Regenerating Islet Derived Protein 4 (REG4) ELISA Kit BYT-ORB1948268

Artikelname	Mouse Regenerating Islet Derived Protein 4 (REG4) ELISA Kit
Artikelnummer	BYT-ORB1948268
Hersteller Artikelnummer	orb1948268
Alternativnummer	BYT-ORB1948268-48,BYT-ORB1948268-96
Hersteller	Biorbyt
Kategorie	Kits/Assays
Spezies Reaktivität	Mouse
Produktbeschreibung	Mouse Regenerating Islet Derived Protein 4 (REG4) ELISA Kit...
Detektionsbereich	46.88-3000pg/mL
Sensitivitaet	28.13 pg/mL
UniProt	Q9D8G5
Proben	serum, plasma, Tissue homogenate and Other biological samples
Target-Kategorie	REG4

Anwendungsbeschreibung

Application Notes: This ELISA kit uses the Sandwich-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Mouse REG4. Standards or samples are added to the micro ELISA plate wells and combined with the specific antibody. Then a biotinylated detection antibody specific for Mouse REG4 and Avidin-Horseradish Peroxidase (HRP) conjugate are added successively to each micro plate well and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain Mouse REG4, biotinylated detection antibody and Avidin-HRP conjugate will appear blue in color. The enzyme-substrate reaction is terminated by the addition of stop solution and the color turns yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm. The OD value is proportional to the concentration of Mouse REG4. You can calculate the concentration of Mouse REG4 in the samples by comparing the OD of the samples to the standard curve
