Human General Transcription Factor IIB (GTF2B) ELISA Kit BYT-ORB1948609

Artikelname	Human General Transcription Factor IIB (GTF2B) ELISA Kit
Artikelnummer	BYT-ORB1948609
Hersteller Artikelnummer	orb1948609
Alternativnummer	BYT-ORB1948609-48,BYT-ORB1948609-96
Hersteller	Biorbyt
Kategorie	Kits/Assays
Spezies Reaktivität	Human
Produktbeschreibung	Human General Transcription Factor IIB (GTF2B) ELISA Kit...
Detektionsbereich	31.25-2000pg/mL
Sensitivitaet	18.75 pg/mL
UniProt	Q00403
Proben	serum, plasma, Tissue homogenate and Other biological samples
Target-Kategorie	GTF2B

Anwendungsbeschreibung

Application Notes: This ELISA kit uses the Sandwich-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Human GTF2B. Standards or samples are added to the micro ELISA plate wells and combined with the specific antibody. Then a biotinylated detection antibody specific for Human GTF2B and Avidin-Horseradish Peroxidase (HRP) conjugate are added successively to each micro plate well and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain Human GTF2B, biotinylated detection antibody and Avidin-HRP conjugate will appear blue in color. The enzyme-substrate reaction is terminated by the addition of stop solution and the color turns yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm. The OD value is proportional to the concentration of Human GTF2B. You can calculate the concentration of Human GTF2B in the samples by comparing the OD of the samples to the standard curve
