Product Datasheet

Rat Prostaglandin E Synthase, Microsomal (PTGES) ELISA Kit BYT-ORB1949915

Artikelname	Rat Prostaglandin E Synthase, Microsomal (PTGES) ELISA Kit
Artikelnummer	BYT-ORB1949915
Hersteller Artikelnummer	orb1949915
Alternativnummer	BYT-ORB1949915-48,BYT-ORB1949915-96
Hersteller	Biorbyt
Kategorie	Kits/Assays
Spezies Reaktivität	Rat
Produktbeschreibung	Rat Prostaglandin E Synthase, Microsomal (PTGES) ELISA Kit...
Detektionsbereich	0.16-10ng/mL
Sensitivitaet	0.1 ng/mL
UniProt	Q9JHF3
Proben	serum, plasma, Tissue homogenate and Other biological samples
Target-Kategorie	PTGES

Anwendungsbeschreibung

Application Notes: This ELISA kit uses the Sandwich-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Rat PTGES. Standards or samples are added to the micro ELISA plate wells and combined with the specific antibody. Then a biotinylated detection antibody specific for Rat PTGES and Avidin-Horseradish Peroxidase (HRP) conjugate are added successively to each micro plate well and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain Rat PTGES, biotinylated detection antibody and Avidin-HRP conjugate will appear blue in color. The enzyme-substrate reaction is terminated by the addition of stop solution and the color turns yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm. The OD value is proportional to the concentration of Rat PTGES. You can calculate the concentration of Rat PTGES in the samples by comparing the OD of the samples to the standard curve
