## Product Datasheet

### Human Cluster of Differentiation 42 (CD42) ELISA Kit BYT-ORB1949944

Artikelname	Human Cluster of Differentiation 42 (CD42) ELISA Kit
Artikelnummer	BYT-ORB1949944
Hersteller Artikelnummer	orb1949944
Alternativnummer	BYT-ORB1949944-48,BYT-ORB1949944-96
Hersteller	Biorbyt
Kategorie	Kits/Assays
Spezies Reaktivität	Human
Produktbeschreibung	Human Cluster of Differentiation 42 (CD42) ELISA Kit...
Detektionsbereich	3.13-200ng/mL
Sensitivitaet	1.88 ng/mL
UniProt	<a href="#">P13224</a>
Proben	plasma(Blood is obtained after centrifugation using platelet cell suspension)
Target-Kategorie	CD42

Anwendungsbeschreibung

Application Notes: This ELISA kit uses the Sandwich-ELISA principle. The micro ELISA plate provided in this kit has been pre-coated with an antibody specific to Human CD42. Standards or samples are added to the micro ELISA plate wells and combined with the specific antibody. Then a biotinylated detection antibody specific for Human CD42 and Avidin-Horseradish Peroxidase (HRP) conjugate are added successively to each micro plate well and incubated. Free components are washed away. The substrate solution is added to each well. Only those wells that contain Human CD42, biotinylated detection antibody and Avidin-HRP conjugate will appear blue in color. The enzyme-substrate reaction is terminated by the addition of stop solution and the color turns yellow. The optical density (OD) is measured spectrophotometrically at a wavelength of 450 nm. The OD value is proportional to the concentration of Human CD42. You can calculate the concentration of Human CD42 in the samples by comparing the OD of the samples to the standard curve
