Reinheit	This affinity purified antibody is directed against human Nestin protein. The product was affinity purified from monospecific antiserum by immunoaffinity purification. A BLAST analysis was used to suggest cross reactivity with Nestin protein from human and <i>Mesocricetus auratus</i> (100% homology). Based on protein sequence homology also expect partial reactivity against Nestin homologues from mouse (93%) and rat (88%). Reactivity against homologues from other sources is not known.
Formulierung	Liquid (sterile filtered)
Application Verdünnung	ELISA: 1:20,000 - 1:80,000, WB: 1:500 - 1:3,000
Anwendungsbeschreibung	Application Notes: This affinity purified antibody has been tested for use in ELISA, immunohistochemistry, and western blot. Specific conditions for reactivity should be optimized by the end user. Expect a band approximately 200-220 kDa in size corresponding to Nestin protein by western blotting in the appropriate cell lysate or extract
