| Puffer                   | PBS, pH 7.4                                                                                                                                                                                                                |
| Reinheit                 | >90% as determined by SDS-PAGE.                                                                                                                                                                                            |
| Formulierung             | Lyophilized                                                                                                                                                                                                                |
| Sequenz                  | Thr 21 - Ile 192                                                                                                                                                                                                           |
| Anwendungsbeschreibung   | Application Notes: This protein carries a polyhistidine tag at the C-terminus. The protein has a calculated MW of 21.1 kDa. The protein migrates as 35-45 kDa under reducing (R) condition (SDS-PAGE) due to glycosylation |
