| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ICC, WB                                                                                                                                                                                                                                                       |
| Spezies Reaktivität      | Human, Mouse, Rat                                                                                                                                                                                                                                             |
| Immunogen                | E.coli-derived human Cystatin A recombinant protein (Position: E8-F98). Human Cystatin A shares 61.5% and 58.2% amino acid (aa) sequence identity with mouse and rat Cystatin A, respectively.                                                                |
| Konjugation              | Unconjugated                                                                                                                                                                                                                                                  |
| Produktbeschreibung      | Anti-Cystatin A/CSTA Antibody. Tested in ICC/IF, WB applications. This antibody reacts with Human, Mouse, Rat. The brand indicates this is a premium antibody that guarantees superior quality, high affinity, and strong signals with minimal background ... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
| Konzentration            | Adding 0.2 ml of distilled water will yield a concentration of 500 µg/ml.                                                                                                                                                                                     |

|                        |                                                                                                        |
|------------------------|--------------------------------------------------------------------------------------------------------|
| Molekulargewicht       | 11 kDa                                                                                                 |
| UniProt                | <a href="#">P01040</a>                                                                                 |
| Puffer                 | Each vial contains 4mg Trehalose, 0.9mg NaCl and 0.2mg Na <sub>2</sub> HPO <sub>4</sub> .              |
| Formulierung           | Lyophilized                                                                                            |
| Target-Kategorie       | Cystatin-A                                                                                             |
| Application Verdünnung | Western blot, 0.1-0.5µg/ml, Human, Mouse, Rat<br>Immunocytochemistry/Immunofluorescence, 5µg/ml, Human |
