Phalloidin - FITC, CAS [[915026-99-2]] BYT-ORB1289368

Artikelname	Phalloidin - FITC, CAS [[915026-99-2]]
Artikelnummer	BYT-ORB1289368
Hersteller Artikelnummer	orb1289368
Alternativnummer	BYT-ORB1289368-50,BYT-ORB1289368-300
Hersteller	Biorbyt
Kategorie	Biochemikalien
Applikation	IF
Konjugation	FITC
Produktbeschreibung	Phalloidin - FITC, FITC conjugated phalloidin is a green fluorescent cytoskeleton stain that binds to and labels F-actin. For most fluorescence imaging applications, cells should be fixed and permeabilized. Excitation/emission maxima lambda~496/516 n...
Molekulargewicht	1177.27
Formulierung	Lyophilized powder, and it is difficult to observe the trace amount. Please centrifuge before use, and add appropriate solvent to dissolve it. The solution after dissolution is almost transparent.
CAS Nummer	[915026-99-2]
Proben	formaldehyde-fixed, permeabilized tissue sections, cell cultures or cellfree experiments
Formel	C56H60N10O15S2

Anwendungsbeschreibung

Application Notes: This is a toxic substance and require caution during handling. It is recommended to wear a lab coat, mask, and disposable gloves
