| Applikation              | FACS                                                                                                                                                                                                                                                          |
| Spezies Reaktivität      | Mouse                                                                                                                                                                                                                                                         |
| Immunogen                | The B6.1 mouse cytotoxic T cell line was used as immunogen for this antibody.                                                                                                                                                                                 |
| Konjugation              | FITC                                                                                                                                                                                                                                                          |
| Produktbeschreibung      | CD25 is the alpha chain of the IL-2 receptor. It is a type I transmembrane protein present on activated T cells, activated B cells, some thymocytes, myeloid precursors, and oligodendrocytes that associates with CD122 to form a heterodimer that can ac... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [PC61]                                                                                                                                                                                                                                                        |
| NCBI                     | <a href="#">16184</a>                                                                                                                                                                                                                                         |

|                        |                                      |
