| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Peptide sequence around phosphorylation site of serine 516 (Q-P-S(p)-T-S) derived from Human Chk2.                                                                                                                                                            |
| Produktbeschreibung      | In response to DNA damage and replication blocks, cell cycle progression is halted through the control of critical cell cycle regulators. The protein encoded by Chk2 gene is a cell cycle checkpoint regulator and putative tumor suppressor. It contains... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
