| Spezies Reaktivität      | Human, Mouse, Rat                                                                                                                                                                                                                                             |
| Immunogen                | Peptide sequence around phosphorylation site of serine 71 (P-L-S(p)-Y-P) derived from Human Rac1.                                                                                                                                                             |
| Produktbeschreibung      | Rac1 encoded by this gene is a GTPase which belongs to the RAS superfamily of small GTP-binding proteins. Members of this superfamily appear to regulate a diverse array of cellular events, including the control of cell growth, cytoskeletal reorganiza... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
