| Applikation              | IF, IHC, WB                                                                                                                                                                                                      |
| Spezies Reaktivität      | Human, Mouse, Rat                                                                                                                                                                                                |
| Immunogen                | Peptide sequence around aa. 1246~1250 (P-E-Y-L-G) derived from Human HER2.                                                                                                                                       |
| Produktbeschreibung      | Essential component of a neuregulin-receptor complex, although neuregulins do not interact with it alone. GP30 is a potential ligand for this receptor. Not activated by EGF, TGF- $\alpha$ and amphiregulin.... |
| Klonalität               | Polyclonal                                                                                                                                                                                                       |
