| Spezies Reaktivität      | Human, Mouse, Rat                                                                                                                                                                                                                                             |
| Immunogen                | Peptide sequence around aa.56~60 (R-S-S-W-R) derived from Human 14-3-3 zeta.                                                                                                                                                                                  |
| Produktbeschreibung      | This gene product belongs to the 14-3-3 family of proteins which mediate signal transduction by binding to phosphoserine-containing proteins. This highly conserved protein family is found in both plants and mammals, and this protein is 99% identical ... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
