| Immunogen                | Phosphotyrosine conjugated to KLH                                                                                                                                                                                                                             |
| Produktbeschreibung      | Protein phosphorylation is a fundamental event in the regulation of a large number of intracellular processes. Phosphorylation of specific tyrosine residues is the result of activation or stimulation of their respective protein tyrosine kinases. The ... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [SPM102]                                                                                                                                                                                                                                                      |
| Reinheit                 | Affinity Chromatography                                                                                                                                                                                                                                       |
| Formulierung             | Purified                                                                                                                                                                                                                                                      |

|                        |                                                                                                                                                                                                                                                                  |
|------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Target-Kategorie       | Phosphotyrosine (P-Tyr)                                                                                                                                                                                                                                          |
| Application Verdünnung | Flow Cytometry (1-2ug/million cells), Immunofluorescence (1-2ug/ml), Western Blot (1-2ug/ml), Immunoprecipitation (1-2ug/500ug protein lysate), Immunohistochemistry (Formalin-fixed) (1-2ug/ml for 30 minutes at RT) (No pretreatment is required for staining) |
