| Immunogen                | Recombinant fragment (N-terminus, aa 1-300) of human PAX6 protein                                                                                                                                                                                             |
| Produktbeschreibung      | Pax genes contain paired domains with strong homology to genes in Drosophila, which are involved in programming early development. Lesions in the Pax-6 gene account for most cases of aniridia, a congenital malformation of the eye, chiefly characteriz... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [PAX6/498]                                                                                                                                                                                                                                                    |
| NCBI                     | <a href="#">5080</a>                                                                                                                                                                                                                                          |

|                        |                                                                                                      |
|------------------------|------------------------------------------------------------------------------------------------------|
| UniProt                | <a href="#">P26367</a>                                                                               |
| Reinheit               | Affinity Chromatography                                                                              |
| Formulierung           | Purified                                                                                             |
| Target-Kategorie       | PAX6 (Stem Cell Marker)                                                                              |
| Application Verdünnung | Flow Cytometry (0.5-1ug/million cells), ,Immunofluorescence (0.5-1ug/ml), ,Western Blot (1-2ug/ml),, |
