| Immunogen                | Recombinant fragment (around aa 249-376) of human Adipophilin (ADFP) protein (exact sequence is proprietary)                                                                                                                                                  |
| Produktbeschreibung      | Recognizes a protein of 48kDa, which is identified as Adipophilin. It belongs to the perilipin family, members of which coat intracellular lipid storage droplets. This protein is associated with the lipid globule surface membrane material, and maybe ... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
