| Immunogen                | Full-length His-tagged Mouse FOXP3 protein                                                                                                                                                                                                                    |
| Produktbeschreibung      | Recognizes a protein of 47-55kDa, which is identified as FOXP3. Its precise epitope is not known, but it has been mapped to the N-terminal portion (amino acids 2-136) of the protein.The FOX family of transcription factors is a large group of proteins... |
