| Immunogen                | Recombinant fragment of human RAD51 protein (around aa 1-134)<br>(exact sequence is proprietary)                                                                                                                                                              |
| Produktbeschreibung      | RAD51 is one of the key factors of DNA repair by homologous recombination and has been shown to have anti-apoptotic activity in tumor cells. RAD51 protein interacts with a variety of tumor suppressor proteins including p53, BRCA1 and BRCA2. Elevated ... |
