| Applikation              | FACS, IF, WB                                                                                                                                                                                                                                                  |
| Spezies Reaktivität      | Human, Rat                                                                                                                                                                                                                                                    |
| Immunogen                | A synthetic peptide corresponding to amino acids 156-168 of the cytoplasmic domain of human CD3- $\mu$ chain                                                                                                                                                  |
| Produktbeschreibung      | Recognizes the epsilon-chain of CD3, which consists of five different polypeptide chains (designated as gamma, delta, epsilon, zeta, and eta) with MW ranging from 16-28kDa. The CD3 complex is closely associated at the lymphocyte cell surface with the... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [PC3/188A]                                                                                                                                                                                                                                                    |
| NCBI                     | <a href="#">916</a>                                                                                                                                                                                                                                           |

|                        |                                                                                                                             |
|------------------------|-----------------------------------------------------------------------------------------------------------------------------|
| UniProt                | <a href="#">P07766</a>                                                                                                      |
| Application Verdünnung | Flow Cytometry (0.5-1ug/million cells), ,Immunofluorescence (1-2ug/ml), ,Western Blotting (1-2ug/ml for 60 minutes at RT),, |
