| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC                                                                                                                                                                                                                                                           |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Recombinant fragment (around aa 89-251) of human Aurora B protein (exact sequence is proprietary)                                                                                                                                                             |
| Produktbeschreibung      | Recognizes a protein of 39kDa, which is identified as Aurora B. The serine/threonine protein kinase aurora B (Aurora B) is a chromosomal passenger protein critical for accurate chromosome segregation, cytokinesis, protein localization to the centrome... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [AURKB/1845]                                                                                                                                                                                                                                                  |
| NCBI                     | <a href="#">9212</a>                                                                                                                                                                                                                                          |

|                        |                                                                                                                                                                                                                                                |
