| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | FA, FACS, IF, IHC, WB                                                                                                                                                                                                                                         |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Recombinant full-length human CD44 protein                                                                                                                                                                                                                    |
| Produktbeschreibung      | Recognizes a cell surface glycoprotein of 80-95kDa (CD44) on lymphocytes, monocytes, and granulocytes (Leucocyte Typing Workshop V). Its epitope is resistant to digestion by trypsin and chymotrypsin. This MAb selectively interferes with lymphocyte bi... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [rHCAM/918]                                                                                                                                                                                                                                                   |
