| Konjugation              | ATTO-390                                                                                                                                                                                                                                                      |
| Produktbeschreibung      | HSP27s belong to an abundant and ubiquitous family of small heat shock proteins (sHSP). It is an important HSP found in both normal human cells and cancer cells. The basic structure of most sHSPs is a homologous and highly conserved amino acid sequen... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [5D12-A12]                                                                                                                                                                                                                                                    |
| NCBI                     | <a href="#">3315</a>                                                                                                                                                                                                                                          |

|                        |                                                                                             |
