| Artikelname              | Lactic acid-Histone H3-K27 Rabbit pAb                                                                                                               |
| Artikelnummer            | ABB-A18825                                                                                                                                          |
| Hersteller Artikelnummer | A18825                                                                                                                                              |
| Alternativnummer         | ABB-A18825-1000UL, ABB-A18825-500UL, ABB-A18825-100UL, ABB-A18825-20UL                                                                              |
| Hersteller               | ABclonal                                                                                                                                            |
| Wirt                     | Rabbit                                                                                                                                              |
| Kategorie                | Antikörper                                                                                                                                          |
| Applikation              | ELISA, WB                                                                                                                                           |
| Spezies Reaktivität      | Human                                                                                                                                               |
| Immunogen                | Synthetic peptide. This information is considered to be commercially sensitive.                                                                     |
| Molekulargewicht         | 15kDa                                                                                                                                               |
| NCBI                     | <a href="#">8290</a>                                                                                                                                |
| UniProt                  | <a href="#">Q16695</a>                                                                                                                              |
| Reinheit                 | Affinity purification                                                                                                                               |
| Application Verdünnung   | WB,1:500 - 1:1000 ELISA,Recommended starting concentration is 1 µg/mL. Please optimize the concentration based on your specific assay requirements. |

|                        |                                                                                                                                                                                                                                                                                     |
|------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Anwendungsbeschreibung | <p>Cross-Reactivity: Human,Mouse,Rat,Other (Wide Range Predicted).</p> <p>ResearchArea: Protein phosphorylation,Signal Transduction,MAPK-Erk Signaling Pathway,Cell Biology Developmental Biology,Cell Cycle,Immunology Inflammation,NF-kB Signaling Pathway. Shipping: Ice Bag</p> |
