| Artikelname              | Phospho-p38 MAPK-T180/Y182 Rabbit pAb, Unconjugated                                                                                                                      |
| Artikelnummer            | ABB-AP0297                                                                                                                                                               |
| Hersteller Artikelnummer | AP0297                                                                                                                                                                   |
| Alternativnummer         | ABB-AP0297-100UL, ABB-AP0297-20UL                                                                                                                                        |
| Hersteller               | ABclonal                                                                                                                                                                 |
| Wirt                     | Rabbit                                                                                                                                                                   |
| Kategorie                | Antikörper                                                                                                                                                               |
| Applikation              | ELISA, IHC-P, WB                                                                                                                                                         |
| Spezies Reaktivität      | Human                                                                                                                                                                    |
| Immunogen                | Synthetic peptide. This information is considered to be commercially sensitive.                                                                                          |
| Konjugation              | Unconjugated                                                                                                                                                             |
| Molekulargewicht         | 41kDa                                                                                                                                                                    |
| NCBI                     | <a href="#">1432</a>                                                                                                                                                     |
| UniProt                  | <a href="#">Q16539</a>                                                                                                                                                   |
| Reinheit                 | Affinity purification                                                                                                                                                    |
| Application Verdünnung   | WB,1:500 - 1:2000 IHC-P,1:150 - 1:1600 ELISA,Recommended starting concentration is 1 µg/mL. Please optimize the concentration based on your specific assay requirements. |

|                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
|------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Anwendungsbeschreibung | Cross-Reactivity: Human,Mouse,Rat. ResearchArea: Epigenetics<br>Nuclear Signaling,Translation Control,Regulation of eIF4 and p70 S6<br>Kinase,Protein phosphorylation,Signal Transduction,Kinase,Serine<br>threonine kinases,ErbB-HER Signaling Pathway,ATM Signaling<br>Pathway,Cell Biology Developmental Biology,TGF-b-Smad Signaling<br>Pathway,Immunology Inflammation,B Cell Receptor Signaling<br>Pathway,T Cell Receptor Signaling Pathway,NF-kB Signaling<br>Pathway,Toll-like Receptor Signaling Pathway,Cell Intrinsic Innate<br>Immunity Signaling Pathway,TLR<br>Signaling,Neuroscience,Neurodegenerative<br>Diseases,Cardiovascular,Angiogenesis. Shipping: Ice Bag |
