| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | FC, IP                                                                                                                                                                                                                                                        |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | TL-Mor cell line                                                                                                                                                                                                                                              |
| Produktbeschreibung      | CD122 (IL-2/IL-15R beta) constitutes together with CD132 (common gamma chain) and with CD25 (IL-2/IL15R alpha) the intermediate (CD122+CD132) and the high affinity (CD122+CD132+CD25) IL-2 and IL-15 receptor complex. CD122 is expressed on NK cells and... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 1 mg/ml                                                                                                                                                                                                                                                       |
| Klon-Bezeichnung         | [TU27]                                                                                                                                                                                                                                                        |
| Isotyp                   | IgG1, kappa                                                                                                                                                                                                                                                   |
| Puffer                   | Phosphate buffered saline (PBS), pH 7.4, 15 mM sodium azide                                                                                                                                                                                                   |
| Lagerung                 | 2°C to 8°C                                                                                                                                                                                                                                                    |

|                        |                                                  |
|------------------------|--------------------------------------------------|
| Antibody Type          | Monoclonal Antibody                              |
| Anwendungsbeschreibung | Flow cytometry: Recommended dilution: 1-4 µg/ml. |
