| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IP, WB                                                                                                                                                                                                                                                        |
| Spezies Reaktivität      | All                                                                                                                                                                                                                                                           |
| Immunogen                | GST fusion protein                                                                                                                                                                                                                                            |
| Produktbeschreibung      | The GST (glutathione-S-transferase) is a 26kDa protein encoded by the parasite Schistosoma japonicum, easily purified by affinity chromatography on immobilized glutathione. GST is utilized as a fusion protein with foreign proteins in a range of proka... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 1 mg/ml                                                                                                                                                                                                                                                       |
| Klon-Bezeichnung         | [S-tag-05]                                                                                                                                                                                                                                                    |
| Isotyp                   | Mouse IgG2b                                                                                                                                                                                                                                                   |
| Puffer                   | Phosphate buffered saline (PBS), pH 7.4, 15 mM sodium azide                                                                                                                                                                                                   |
| Lagerung                 | 2°C to 8°C                                                                                                                                                                                                                                                    |

|                        |                                                                                                             |
|------------------------|-------------------------------------------------------------------------------------------------------------|
| Target-Kategorie       | GST tag                                                                                                     |
| Antibody Type          | Monoclonal Antibody                                                                                         |
| Anwendungsbeschreibung | Western blotting: Recommended dilution: 1 µg/ml, positive control: GST fusion protein, reducing conditions. |
