| Alternativnummer         | EXB-11-524-C100                                                                                                                                                                                                                                               |
| Hersteller               | EXBIO                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ICC, WB                                                                                                                                                                                                                                                       |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | Peptide corresponding to a sequence within N-terminal domain of human SHIP-1.                                                                                                                                                                                 |
| Produktbeschreibung      | SHIP-1 (SH2 domain containing inositol phosphatase-1) is a 5'inositol phosphatase that regulates cell responses in lymphocytes and myeloid cells by hydrolyzing the second messenger PI(3,4,5) trisphosphate. SHIP-1 is recruited upon engagement of both ... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 1 mg/ml                                                                                                                                                                                                                                                       |
| Klon-Bezeichnung         | [SHIP-01]                                                                                                                                                                                                                                                     |
| Isotyp                   | Mouse IgG2a                                                                                                                                                                                                                                                   |
| Puffer                   | Phosphate buffered saline (PBS), pH 7.4, 15 mM sodium azide                                                                                                                                                                                                   |

|                        |                                                                                                                                                                                                    |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Lagerung               | 2°C to 8°C                                                                                                                                                                                         |
| Target-Kategorie       | SHIP1                                                                                                                                                                                              |
| Antibody Type          | Monoclonal Antibody                                                                                                                                                                                |
| Anwendungsbeschreibung | Flow cytometry: Intracellular staining, recommended dilution: 2-5 µg/ml, positive control: human blood leukocytes. Western blotting: Positive control: RAMOS human cell line, reducing conditions. |
