| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ELISA, FA, FC, IP                                                                                                                                                                                                                                             |
| Spezies Reaktivität      | Human, Primate                                                                                                                                                                                                                                                |
| Immunogen                | Recombinant human CD137 ectodomain                                                                                                                                                                                                                            |
| Produktbeschreibung      | CD137, also known as TNFRSF9 or 4-1BB, is an inducible costimulatory molecule expressed mainly on activated T cells. Its ligand, known as 4-1BBL, is expressed on activated macrophages, mature B cells, hematopoietic stem cells, and myeloid progenitor ... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 1 mg/ml                                                                                                                                                                                                                                                       |
| Klon-Bezeichnung         | [4B4-1]                                                                                                                                                                                                                                                       |
| Isotyp                   | Mouse IgG1 kappa                                                                                                                                                                                                                                              |
| Puffer                   | Phosphate buffered saline (PBS), pH 7.4                                                                                                                                                                                                                       |
| Lagerung                 | 2°C to 8°C                                                                                                                                                                                                                                                    |

|                        |                                                                                                            |
|------------------------|------------------------------------------------------------------------------------------------------------|
| Target-Kategorie       | CD137                                                                                                      |
| Antibody Type          | Monoclonal Antibody                                                                                        |
| Anwendungsbeschreibung | Functional application: Inhibition of cytokine production. Flow cytometry: Recommended dilution: 1-4 µg/ml |
