| Spezies Reaktivität      | Rat                                                                                                                                                                                                                                                           |
| Immunogen                | CD8 positive Wistar rat splenic T cell hybridomas                                                                                                                                                                                                             |
| Konjugation              | PE                                                                                                                                                                                                                                                            |
| Produktbeschreibung      | The CD8b (CD8 beta) subunit of CD8 T cell coreceptor is expressed in CD8 alpha/beta heterodimers on majority of MHC I-restricted conventional T cells and thymocytes and in CD8 alpha/alpha homodimers on subsets of memory T cells, intraepithelial lymph... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 0.5 mg/ml                                                                                                                                                                                                                                                     |
| Klon-Bezeichnung         | [341]                                                                                                                                                                                                                                                         |
| Isotyp                   | Mouse IgG1 kappa                                                                                                                                                                                                                                              |
| Puffer                   | Phosphate buffered saline (PBS), pH 7.4, 15 mM sodium azide                                                                                                                                                                                                   |

|                        |                                                  |
|------------------------|--------------------------------------------------|
| Lagerung               | 2°C to 8°C                                       |
| Target-Kategorie       | CD8b                                             |
| Antibody Type          | Monoclonal Antibody                              |
| Anwendungsbeschreibung | Flow cytometry: Recommended dilution: 1-5 µg/ml. |
