| Immunogen                | Recombinant fragment of human OPAL1 (amino acids 152-342)                                                                                                                                                                                                     |
| Konjugation              | PE                                                                                                                                                                                                                                                            |
| Produktbeschreibung      | OPAL1 (outcome predictor in acute leukemia 1) is an almost uncharacterized transmembrane adaptor protein expressed mainly by megacaryocytes and platelets. Its expression is enhanced on TEL/AML leukemic cells. The function of OPAL1 is unknown, althoug... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 0.1 mg/ml                                                                                                                                                                                                                                                     |
| Klon-Bezeichnung         | [OPAL1-01]                                                                                                                                                                                                                                                    |
| Isotyp                   | IgG2a                                                                                                                                                                                                                                                         |

|                        |                                                                          |
|------------------------|--------------------------------------------------------------------------|
| Puffer                 | Stabilizing phosphate buffered saline (PBS), pH 7.4, 15 mM sodium azide  |
| Lagerung               | 2°C to 8°C                                                               |
| Antibody Type          | Monoclonal Antibody                                                      |
| Anwendungsbeschreibung | Flow cytometry: Recommended dilution: 1-5 µg/ml. Intracellular staining. |
