| Kategorie                | Antikörper                                                                                                                                                                                                                                    |
| Applikation              | FC                                                                                                                                                                                                                                            |
| Spezies Reaktivität      | Human, Primate                                                                                                                                                                                                                                |
| Immunogen                | Human neutrophils                                                                                                                                                                                                                             |
| Konjugation              | PerCP                                                                                                                                                                                                                                         |
| Produktbeschreibung      | CD16 (FcγRIII) is a 50-65 kDa glycoprotein serving as a low affinity IgG receptor. Human FcγRIII is expressed in two forms - FcγRIII-A and -B. FcγRIII-A is a transmembrane protein of monocytes, macrophages, NK cells and a subset of T ... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [3G8]                                                                                                                                                                                                                                         |
| Isotyp                   | Mouse IgG1 kappa                                                                                                                                                                                                                              |
| Puffer                   | Stabilizing phosphate buffered saline (PBS), pH 7.4, 15 mM sodium azide                                                                                                                                                                       |

|                        |                                                                                                                                                                                                                           |
|------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Lagerung               | 2°C to 8°C                                                                                                                                                                                                                |
| Target-Kategorie       | CD16                                                                                                                                                                                                                      |
| Antibody Type          | Monoclonal Antibody                                                                                                                                                                                                       |
| Application Verdünnung | Flow cytometry: The reagent is designed for analysis of human blood cells using 10 µl reagent / 100 µl of whole blood or 10 <sup>6</sup> cells in a suspension. The content of a vial (1 ml) is sufficient for 100 tests. |
