| Produktbeschreibung      | ELISA Flex kit for quantification of IL-3 in solution, The human Interleukin-3 (IL-3) ELISA Flex kit is ideal for users who want the flexibility of setting up their own ELISA assay. This product enables quantification of human IL-3 in solution, e.g. ...                                                                                                                                                                                                            |
| Detektionsbereich        | 25-2500 pg/ml                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| NCBI                     | <a href="#">3562</a>                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| Target-Kategorie         | IL-3                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
