| Produktbeschreibung      | ELISA Flex kit for quantification of IL-17A in solution, The bovine IL-17A ELISA Flex kit is ideal for users who want the flexibility of setting up their own ELISA assay. This product enables quantification of bovine IL-17A in solution, e.g. in cell ...                                                                 |
| Detektionsbereich        | 1-200 pg/ml                                                                                                                                                                                                                                                                                                                   |
| NCBI                     | <a href="#">282863</a>                                                                                                                                                                                                                                                                                                        |
| Target-Kategorie         | IL-17A                                                                                                                                                                                                                                                                                                                        |
