| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ICC, IHC-P, WB                                                                                                                                                                                                                                                |
| Spezies Reaktivität      | Mammal                                                                                                                                                                                                                                                        |
| Immunogen                | Recombinant His-tagged hamster cyclin B1                                                                                                                                                                                                                      |
| Produktbeschreibung      | Cyclin B1 is a regulatory protein involved in mitosis. It complexes with p34(cdc2) to form maturation-promoting factor (MPF), and is necessary for proper control of the G2/M phase transition of the cell cycle. It is expressed in tissues containing pr... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 1 mg/ml                                                                                                                                                                                                                                                       |
| Klon-Bezeichnung         | [V152]                                                                                                                                                                                                                                                        |
| Isotyp                   | Mouse IgG1                                                                                                                                                                                                                                                    |
| Puffer                   | Phosphate buffered saline (PBS), pH 7.4, 15 mM sodium azide                                                                                                                                                                                                   |
| Target-Kategorie         | Cyclin B1                                                                                                                                                                                                                                                     |

|                        |                                                                          |
|------------------------|--------------------------------------------------------------------------|
| Antibody Type          | Monoclonal Antibody                                                      |
| Anwendungsbeschreibung | Flow cytometry: Recommended dilution: 2-5 µg/ml. Intracellular staining. |
