| Kategorie                | Antikörper                                                                                                                                                                                                                                                     |
| Applikation              | FA, FC, IHC-Fr, IHC-P, IP, WB                                                                                                                                                                                                                                  |
| Spezies Reaktivität      | Rat                                                                                                                                                                                                                                                            |
| Immunogen                | High Mw glycoproteins from rat thymocytes                                                                                                                                                                                                                      |
| Produktbeschreibung      | The CD8a (CD8 alpha) subunit of CD8 T cell coreceptor is expressed in CD8 alpha/beta heterodimers on majority of MHC I-restricted conventional T cells and thymocytes and in CD8 alpha/alpha homodimers on subsets of memory T cells, intraepithelial lymph... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                     |
| Konzentration            | 1 mg/ml                                                                                                                                                                                                                                                        |
| Klon-Bezeichnung         | [OX-8]                                                                                                                                                                                                                                                         |
| Isotyp                   | Mouse IgG1 kappa                                                                                                                                                                                                                                               |
| Puffer                   | Phosphate buffered saline (PBS), pH 7.4                                                                                                                                                                                                                        |
| Target-Kategorie         | CD8a                                                                                                                                                                                                                                                           |

|                        |                                                                                  |
|------------------------|----------------------------------------------------------------------------------|
| Antibody Type          | Monoclonal Antibody                                                              |
| Anwendungsbeschreibung | Flow cytometry: Recommended dilution: 1-4 µg/ml.Functional application: Blocking |
