| Wirt                     | Human                                                                                                                                                                                                                                          |
| Kategorie                | Antikörper                                                                                                                                                                                                                                     |
| Applikation              | Depletion, ELISA, IF, IHC                                                                                                                                                                                                                      |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                          |
| Produktbeschreibung      | hA33 was generated by humanization of mouse A33 IgG2a-kappa by CDR-grafting, and expressed in NSO cells. The mouse A33 antibody was prepared by immunizing BALB/c mice with AsPC-1 pancreatic adenocarcinoma cell line SP2/0 myeloma cells.... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                     |
| Klon-Bezeichnung         | [huA33]                                                                                                                                                                                                                                        |
| Isotyp                   | Fab fragment                                                                                                                                                                                                                                   |
