| Wirt                     | Rabbit                                                                                                                                                                                       |
| Kategorie                | Antikörper                                                                                                                                                                                   |
| Immunogen                | Purified human IgM (m chain) AAC37537                                                                                                                                                        |
| Produktbeschreibung      | Rabbit anti-human IgM ( $\mu$ chain) is a secondary antibody which binds to human IgM (m chain) in immunological assays. Antibody is affinity purified using solid phase human IgG (H&L).... |
| Klonalität               | Polyclonal                                                                                                                                                                                   |
| Reinheit                 | Immunogen affinity purified rabbit IgG.                                                                                                                                                      |
| Formulierung             | Liquid                                                                                                                                                                                       |
| Antibody Type            | Polyclonal Antibody                                                                                                                                                                          |
| Application Verdünnung   | This antibody is suitable for all immunoassay applications, The optimal working dilution should be determined by the investigator                                                            |
