## Product Datasheet

### **Goat anti-Human IgA heavy (alpha chain), Affinity purified, Unconjugated, Polyclonal AGR-AS10-731**

|                          |                                                                                                                      |
|--------------------------|----------------------------------------------------------------------------------------------------------------------|
| Artikelname              | Goat anti-Human IgA heavy (alpha chain), Affinity purified, Unconjugated, Polyclonal                                 |
| Artikelnummer            | AGR-AS10-731                                                                                                         |
| Hersteller Artikelnummer | AS10-731                                                                                                             |
| Alternativnummer         | AGR-AS10-731                                                                                                         |
| Hersteller               | Agrisera                                                                                                             |
| Wirt                     | Goat                                                                                                                 |
| Kategorie                | Antikörper                                                                                                           |
| Applikation              | ELISA                                                                                                                |
| Spezies Reaktivität      | Human                                                                                                                |
| Immunogen                | purified human IgA heavy (alpha chain)                                                                               |
| Produktbeschreibung      | Goat anti-human IgA is a secondary antibody which binds to human IgA heavy (alpha chain) in immunological assays.... |
| Klonalität               | Polyclonal                                                                                                           |
| Reinheit                 | Immunogen affinity purified goat IgG.                                                                                |
| Formulierung             | Liquid                                                                                                               |
| Antibody Type            | Polyclonal Antibody                                                                                                  |

|                        |                                                                                                                         |
|------------------------|-------------------------------------------------------------------------------------------------------------------------|
| Application Verdünnung | The optimal working dilution should be determined by the investigator                                                   |
| Anwendungsbeschreibung | No reactivity is observed to the light chains or non-immunoglobulin human serum proteins based on immunoelectrophoresis |
