| Wirt                     | Goat                                                                                                                                                                                                                                                        |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                  |
| Immunogen                | Purified Human Kappa (kappa) Chain                                                                                                                                                                                                                          |
| Produktbeschreibung      | Goat anti-human kappa light chain - DyLight650 Conjugated, min. cross-reactivity to mouse serum is a secondary antibody conjugated to DyLight 650, which binds to human kappa light chain in immunological assays.DyLight 650 has Amax = 652 nm, Emax = ... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                  |
| Reinheit                 | Immunogen affinity purified goat IgG.                                                                                                                                                                                                                       |
| Formulierung             | Lyophilized                                                                                                                                                                                                                                                 |
| Antibody Type            | Polyclonal Antibody                                                                                                                                                                                                                                         |
| Application Verdünnung   | 1 : 20-1 : 2000 for most applications                                                                                                                                                                                                                       |

|                        |                                                                                                                                                 |
|------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------|
| Anwendungsbeschreibung | For reconstitution add 0,55 ml of sterile water, Let it stand 30 minutes at room temperature to dissolve, Prepare fresh working dilutions daily |
