| Immunogen                | Purified Sheep IgG, whole molecule                                                                                                                                                                                                                           |
| Konjugation              | DyLight 350                                                                                                                                                                                                                                                  |
| Produktbeschreibung      | Donkey anti-Sheep IgG (H&L), DyLight350 Conjugated, min. cross-reactivity to human,mouse, or rabbit IgG is a secondary antibody conjugated to DyLight 350, which binds to Sheep IgG (H&L) in immunological assays.DyLight 350 has Amax = 353 nm, Emax = 4... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                   |
| Reinheit                 | Immunogen affinity purified donkey IgG.                                                                                                                                                                                                                      |
| Formulierung             | Lyophilized                                                                                                                                                                                                                                                  |
| Antibody Type            | Polyclonal Antibody                                                                                                                                                                                                                                          |
| Application Verdünnung   | 1 : 20-1 : 2000 for most applications                                                                                                                                                                                                                        |

Anwendungsbeschreibung

For reconstitution add 1,1 ml of sterile water, Let it stand 30 minutes at room temperature to dissolve, Prepare fresh working dilutions daily
