| Kategorie                | Antikörper                                                                                                                                                                                                                                                     |
| Applikation              | FC, IL                                                                                                                                                                                                                                                         |
| Immunogen                | Purified goat IgG, whole molecule,                                                                                                                                                                                                                             |
| Produktbeschreibung      | Rabbit anti-Goat IgG (H&L), DyLight 488 conjugated, min. cross-reactivity to human, mouse, rat IgG is a secondary antibody conjugated to DyLight 488, which binds to Goat IgG (H&L) in immunological assays. DyLight 488 has Amax = 493 nm, Emax = 518 nm. ... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                     |
| Reinheit                 | Immunogen affinity purified rabbit IgG.                                                                                                                                                                                                                        |
| Formulierung             | Lyophilized                                                                                                                                                                                                                                                    |
| Antibody Type            | Polyclonal Antibody                                                                                                                                                                                                                                            |

|                        |                                                                                                                                               |
|------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------|
| Application Verdünnung | 1 : 20-1 : 2000 (Flow cyt), (IL)                                                                                                              |
| Anwendungsbeschreibung | For reconstitution add 1,1 ml of sterile water,Let it stand 30 minutes at room temperature to dissolve, Prepare fresh working dilutions daily |
