| Puffer                 | 0.02 M Potassium Phosphate, 0.15 M Sodium Chloride, pH 7.2                                                                                                                                                                                                                                                                |
| Reinheit               | This product was prepared from monospecific antiserum by immunoaffinity chromatography using Mouse IgG coupled to agarose. Assay by immunoelectrophoresis resulted in a single precipitin arc against anti-Peroxidase, anti-Goat Serum, Mouse IgG and Mouse Serum. No reaction was observed against Human Serum Proteins. |
| Formulierung           | Lyophilized                                                                                                                                                                                                                                                                                                               |
| Formel                 | 20 mM K3PO4,150 mM NaCl,pH 7,2,lyophilisate,0,01% Gentamicin                                                                                                                                                                                                                                                              |
| Target-Kategorie       | Mouse                                                                                                                                                                                                                                                                                                                     |
| Antibody Type          | Secondary Antibody                                                                                                                                                                                                                                                                                                        |
| Application Verdünnung | ELISA Dilution: 1:100,000, Immunohistochemistry Dilution: User Optimized, Western Blot Dilution: 1:2,000 - 1:10,000                                                                                                                                                                                                       |
| Anwendungsbeschreibung | Mouse secondary antibody conjugated to horseradish peroxidase is available in a variety of formats. Anti IgG secondary antibody conjugated is suitable for ELISA, Immunohistochemistry, western blotting, as well as other peroxidase antibody based assays.                                                              |
