| Manufacturer               | Aviva                                                                                                                           |
| Host                       | E. coli                                                                                                                         |
| Category                   | Proteine/Peptide                                                                                                                |
| Application                | ELISA, LF                                                                                                                       |
| Species Reactivity         | Bacteria                                                                                                                        |
| Product Description        | Recombinant Ureaplasma Urealyticum Parvum...                                                                                    |
| Purity                     | Purified by proprietary chromatographic technique.<br/>Purity: Greater than 95% as determined by 10% PAGE (Coomassie staining). |
| Form                       | MB Antigen is formulated in 1x PBS and 0.5mM EDTA. Physical appearance: Sterile filtered colorless solution.                    |
