| Category                   | Antikörper                                                                                                                                                                                                                                                    |
| Application                | ELISA, IHC, WB                                                                                                                                                                                                                                                |
| Species Reactivity         | Human                                                                                                                                                                                                                                                         |
| Immunogen                  | Synthetic peptide derived from the human SPARC protein.                                                                                                                                                                                                       |
| Product Description        | SPARC is a key factor in cell-matrix interactions and possibly tumour aggressiveness. The SPARC gene, which encodes a multifunctional glycoprotein with roles in tissue development, remodelling and fibrosis. A regulator of cell-extracellular matrix (E... |
| Concentration              | Lot specific, see vial                                                                                                                                                                                                                                        |
| UniProt                    | <a href="#">P09486</a>                                                                                                                                                                                                                                        |
| Buffer                     | Provided as ligand affinity purified antibody in phosphate buffered saline with 0.08% sodium azide                                                                                                                                                            |
| Purity                     | Antigen Immunoaffinity Purification                                                                                                                                                                                                                           |
| Form                       | Affinity Purified                                                                                                                                                                                                                                             |

|                   |                                                                                                                         |
|-------------------|-------------------------------------------------------------------------------------------------------------------------|
| Formula           | Provided as ligand affinity purified antibody in phosphate buffered saline with 0.08% sodium azide                      |
| Application Notes | Antibody can be used for Western blotting (0.5-1 µg/ml). Optimal concentration should be evaluated by serial dilutions. |
